

ThermiVa Financial Agreement

Thank you for choosing Complete Women's Care Center to perform your ThermiVa treatment series. ThermiVa is only offered in a series of three treatments which are scheduled at 4-6 week intervals.

The cost of a three treatment package is \$3,000.00 which includes your initial exam and consultation with a physician.

There is a \$100.00 charge for the 30 minute initial consultation, which will be subtracted from your treatment package price if you purchase the package.

Treatments are not sold individually* as results are not optimized unless all three treatments are completed in the appropriate timeframe.

*Individual treatments may be purchased if you have documented prior treatments with another provider and we are completing the series, or for annual maintenance treatments. The cost of individual treatments are \$1000.00

Please complete the following financial agreement prior to treatment:

I _____ request Complete Women's Care Center to perform my ThermiVa three treatment series.

_____ I understand that the cost of the package of three treatments is \$3000.00 and understand that treatments are not sold individually.

_____ I understand that optimal results are obtained if these treatments are scheduled at 4-6 week intervals and that longer intervals may reduce the desired effects.

_____ I understand that payment is required in full prior to beginning the treatment series and that this payment is non-refundable.

_____ I understand that if I fail to complete the series, we will hold your payment and apply it to future treatments when you are ready, but we will not apply this payment as a credit on your account for medical purposes.
